

KEGEL PRESENTS

SPECTO | BOWLING

Specto is a new tracking system for centers, bowlers, and coaches. It records information about bowlers' shots using a high-power sensor and displays it to them on an easy-to-use app.

Simply order a Specto system and allow your bowlers to use your Specto Lanes. Your bowlers will easily be able to connect to the Specto app to view their stats, perform practice drills on their own, or compete in challenges with friends and bowlers worldwide. This fun tool can help bowlers improve and create a buzz in your center.

Purchase your system today and put yourself on the Specto Map!

Specto for Centers

Tap into new revenue potential

- Make practice profitable again by charging to practice on Specto lanes
- Offer membership to your own Specto Club
- Increase F&B sales as bowlers spend more time in your center
